INGRID'S KEYNOTES

***Also Available as Workshops and Coaching Programs.**

What jumping off a Cliff taught me about Change Management and committing to Positive Habits.

- Stress management is not simply a matter of quick tips, it involves a change of perspective and behavior.
- Stress affects various aspects of ones' life, from health to work to home. This keynote focuses on helping individuals identify their stressors, and get clear with the best outcome that will bring happier life experiences; which in turn reduces their stress on a macro and micro level.
- The biggest work to be done is getting clear about the outcome, and "learning" how to make this work for them.
- This keynote will show attendees how to create new routines and plans to help them manage and achieve the committed outcomes they want and need. It's about learning how to personally cope with your stress.
